Dear Mr. Loewenberg:

RE: Gold Coast Galleria
Clark St./Maple St.
P.D. No. 470

Please be advised that your request for a minor change to Residential/Business Planned Development No. 470 on behalf of the applicant, Banbury Development, Inc., has been considered by this Department pursuant to Section 11.11-3(c) of the Chicago Zoning Ordinance. Specifically, you requested authority to increase the maximum percent of land coverage above the base of the building to accommodate a mechanical penthouse.

As approved, the Plan of Development permits a maximum of 22% coverage above 95 feet above grade. The requested change would be to increase the maximum percent of coverage to 26% between 95 feet and 117 feet grade to accommodate the mechanical penthouse only which would be situated towards the western portion of the site and would not be visible from Clark Street. The percent of coverage above 117' would remain at 22.0%.

With regard to this requested change to the Planned Development, the Department of Planning has determined that the addition of a mechanical penthouse with approximate dimensions of 48.0' x 24.0' would constitute a minor change pursuant to Section 11.11-3(c) of the Chicago Zoning Ordinance and that this minor change will not:

1. Change the character of this development;
2. Increase the maximum floor area ratio for the total net site area;
3. Increase the maximum number of units per acre;

Mr. James R. Lowenberg
Page 2

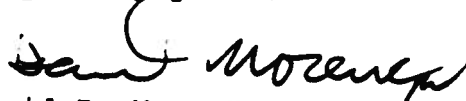

4. Reduce the minimum required distance between structures or in periphery setbacks; or
5. Increase the maximum percent of land covered for the total net site;

providing, however, that the following condition is adhered to at the time of the revised Plan of Development Part II submittal which would help to ensure the compatibility of this development with the Plan of Development and surrounding uses: The detailed drawing submitted for Part II approval must be the same as or in substantial conformity with the revised sheet No. A9 dated April 18, 1990 submitted to the Department of Planning for review.

Pursuant to the authority granted to me by Section 11.11-3(c) of the Zoning Ordinance, I hereby authorize and approve the following minor change to Residential/Business Planned Development No. 470:

The maximum percent of site coverage above 95' above grade is hereby increased from 22.0 percent to 26.0 percent up to 117.0' and remains at 22.0 percent above 117.0'.

Very truly yours,

David R. Mosena
Commissioner

Setback and yard requirements may be adjusted where required to permit conformance to the pattern of, or architectural arrangement related existing structures, or when necessary because of technical reasons subject to the approval of the Department of Planning".
